The Greatest Journey is a service dedicated to helping people make their final transition. It is designed for all persons involved in the dying process: the individual, family members and friends. The Greatest Journey shows us that we can come to the end of a life with grace.

The Great Death Rites practiced by historic traditions allow us to understand the kind of psychological and emotional closure needed. They provide specific steps to bring both reconciliation and healing to the loved ones and to the person dying.

Susana Sorí is an accomplished healer and educator with that rare quality that combines both a profound and deep understanding of her subject with a warm, and engaging personal style. Her focus is to free her clients from the obstacles and issues that hold them back, supporting a client's positive shift at all levels.

Susana has traveled the world teaching and for 35 years has shared her healing knowledge and professional tools which include Resonance Repatterning®, Yoga, Meditation and Breath Work. Susana Sorí is certified in Luminous Healing and Energy Medicine by the Healing Light Body School and holds Advanced Masters from The Four Winds Society, 2006.
