

# THE SONG OF THE HEALING CRYSTAL BOWLS

*'In the ancient lands of Atlantis and Egypt the healers believed that the way to facilitate healing is by opening the 'high heart' that connects all things together. This is represented by the musical note F# or commonly referred to as the Thymus Gland or the center for the immunity system.'*

**I incorporate sound, vibration, sound-infused aromatherapy mists, and healing color light therapy to bring this healing/meditation experience to a deeper and more profound level. Experience the Song of The Angels**
