*Learn to walk through life with energetic protection,
and the awareness of the energies that surround you.*

Friday Evening, Nov. 30 and Saturday, Dec. 1, 2012
12 CE's - SpiritUnleashed™ at the AWC, Tallahassee FL

Energy Awareness and Protection™ is designed with special focus and support to massage therapists, all health care professionals, and anyone who works with others.

Become more aware of your energetic interactions with others and learn the skills to help you protect, maintain, and strengthen your state and well-being.

As healthcare providers, we attend to others in need, stressed, or pulled out of harmony physically, emotionally or spiritually. In caring for others, we risk being negatively affected ourselves.

Over time, not protecting ourselves can have negative consequences - we may feel fatigued, joyless, and even gain weight - if we have not developed the means to effectively clear and shield ourselves.

Energy Awareness and Protection™ gives you the basic knowledge and practical tools to maintain good energetic presence, 'clear the air', recharge yourself and your working environment, in real time.

After this workshop, you will have the basic knowledge and practical skills to realign yourself, as easily as taking a breath.

This workshop will teach you how to:

- Rise above negative influences, be more centered, protected and in the 'zone'.
- Improve your well-being and strengthen your effectiveness when interacting with clients and colleagues.
- Take advantage of your gut-sense and inner knowing.
- Release what pulls you off-center.
- Use practical energetic processes and skills that yogis and healers have used for ages to increase your energy levels.
