

Public Lecture

Medical Doctors from North America and Europe report about:

Healing on the Spiritual Path

- medically verifiable -

Bruno Groening (1906-59)

A higher power exists that is the essence of life, and it can heal. Bruno Groening (1906 - 1959), had very precise, intuitive knowledge of this energy, and through his teaching made it freely available to everyone. Many people have been helped by this ancient knowledge.

Medical doctors and psychologists in all major specialties work together in the Medical Scientific Group (MWF), a part of the Bruno Groening Circle of Friends, to record and verify these spiritual healings.

Lecture contents:

- ▶ Medically documented healings will be explained
- ▶ People who have been healed, even from so-called "incurable" diseases will share their experiences
- ▶ Hear stories about liberation from addiction, depression and anxiety
- ▶ Learn more about this ancient knowledge that has helped thousands of people
- ▶ Experience the healing power for yourself in a simple, natural way
